

## TRANS99 SAIS File Processing Queue Report

The TRANS99 (SAIS File Processing Queue Report) displays LEA-submitted files being (or waiting to be) processed by SAIS.

### TRANS99 - SAIS File Processing Queue

This report shows the LEA files that are processing and/or queued up to process in the SAIS File Processing Queue.

Queued	Career Success Schools	SchoolMaster		✓	12/7/2015 7:43:48 PM
Queued	Ambassador Academy	Statewide SIS		✓	12/7/2015 7:45:13 PM

### Status Shown in Left Column

- **Processing:** Indicates the file is currently being processed by SAIS
- **Queued:** Indicates the file is waiting to be processed by SAIS

### Name Column

- The submitting LEA is listed next to each file
- When multiple files are sent, the LEA will be listed multiple times

### Queue Order

This report does not provide an estimated completion time but rather serves as indicator to LEAs as to where they currently stand in the queue.

- SAIS has limited capabilities that render it unable to handle numerous uploads simultaneously; therefore, files are processed one at a time.

### On AzEDS Column

A checkmark in the **On AzEDS** column indicates that the LEA is submitting their data through AzEDS.

### First Proc Time Column

The **First Proc Time** indicates the time in which the data was submitted to SAIS, regardless of if the data was submitted directly from the LEA or through AzEDS.
